#### SECTION I: PROGRAM INFORMATION

## **Teachers Prepared**

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

Academic Major

#### THIS PAGE INCLUDES:

- >> Teachers Prepared by Subject Area
- >> Teachers Prepared by Academic Major

## **Teachers Prepared by Subject Area**

Please provide the number of teachers prepared by subject area for academic year 2023-24.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. (§205(b)(1)(H))

#### What are CIP Codes?

No teachers prepared in academic year 2023-24

If your program has no teachers prepared, check the box above and leave the table below blank (or clear responses already entered).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<a href="https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55">https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55</a>).

## **Teachers Prepared by Academic Major**

Please provide the number of teachers prepared by academic major for academic year 2023-24. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. (§205(b)(1)(H))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education—Chemistry" category.

## **Assessment Pass Rates**

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. (§205(a)(1)(B))

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact RTI's Title II Support Center and your testing company representative.

## **Use of Technology**

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. (§205(a)(1)(F))

Does your program prepare teachers to:

- a. integrate technology effectively into curricula and instruction
  - Yes

No

- b. use technology effectively to collect data to improve teaching and learning
  - Yes

No

- c. use technology effectively to manage data to improve teaching and learning
  - Ye

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

Students have access to computer labs equipped with projectors, Mondo and smart boards. Students also have access to the unit's curriculum center which is design to mimic the instructional resources available in most K-12 settings. Each student is required to enroll in the EDCI 556. This course prepares teachers to Integrate technology that enhances learning environments and extends performance. Candidates complete tasks that identify six types of visuals/technical tools and compare their advantages and limitations for use as an instructional tool to meet the diverse need of students. Courses were ordered in virtual settings/distance learning. All candidates in graduate programs are encouraged to take full advantage of technology available in their clinical experience sites which can be evaluated through observations by the university supervisor. Throughout the program, candidates use technology to communicate with supervisors (e.g., electronic mail and blackboard). They use technology to meet the needs of diverse learners and instructional enhancements (e.g., PowerPoint, web sites, video streaming, two-way audio/video and multimedia software). They record and analyze student assessment data using computer programs (e.g., Access, Excel), and through their students' assessments data. They are able to growth of their students and make data driven decisions for adjusting instruction. The use of these technologies help candidates adapt general education content to support the learning of students with disabilities.

## **Teacher Training**

- 1. Provide a description of the activities that prepare general education teachers to:
  - a. Teach students with disabilities effectively

All teacher education candidates are required to enroll in the SPED 500 course. This course prepares students with the knowledge, skills and disposition to interact and teach diverse populations including students with disabilities. The EDCI 556 Classroom Management course is designed to prepare students to recognize differences in teaching and learning styles and how they influence classroom management to meet the needs of varied learners. The course deals with topics which may be treated more effectively as a workshop instead of a traditional scheduled course. It is designed to develop in classroom teachers, the skills, knowledge, and dispositions to create and sustain classroom environments that are conducive to learning. Additionally, teachers will explore a range of strategies for resolving conflicts that can and often do, disrupt the learning environment.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

SPED 500 includes opportunities for students to effectively gain knowledge on how to engage in developing individualized education programs and participating in individualized education program meetings with in a school setting. The SPED 507 Advanced Methods in Behavior Management course is designed to extend the knowledge base of educators and related service professionals toward children and youth exhibiting troubling behaviors, by any label. Emphasis are placed on effective school-based interventions.

c. Effectively teach students who are limited English proficient.

Instruction/guidance on identifying and addressing the unique needs of limited English proficient students is threaded through coursework as we train teachers to make accommodations for their students.

2. Does your program prepare special education teachers?

No

If yes, provide a description of the activities that prepare special education teachers to:

- a. Teach students with disabilities effectively
- b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

c. Effectively teach students who are limited English proficient.

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

The Assessment Pass Rates/Summary Pass Rates area of Section III report candidate performance for the 2023-2024 academic year on exams indicate multiple students as not passing. Many of these students/completers, although initially not passing the assessment, were waived from having to retest as part of the test suspension Mississippi Test Waiver Policy (due to COVID-19). These students/completers successfully completed all teacher licensure requirements for Mississippi at that time and should be considered as passing since the requirement for them was waived.
