

# Take control of your diabetes today!

## Mississippi State and School Employees' Health Insurance Plan Members

### Who we are

A group of specialized diabetes experts who work with you and your primary care provider as an added layer of care for your diabetes. We provide diet and exercise plans, medication management and other educational tools.

### Join the 96%

91% of our patients achieve meaningful change in their diabetes in only three to six months and 96% of our patients see meaningful change in their diabetes within one year. More than 10,000 patients over a decade have found this success.

### Use it! It's covered

Your coverage from Diabetes Care Group is part of your benefits and available to you at **no additional cost**. You have every reason to start taking control of your diabetes today!
